Mr. Schoenecker asked if the existing asphalt driveway will remain.

Mr. Kohlmann explained that all the existing asphalt will be removed and replaced with concrete.

Mr. Liechty asked where the downspouts will be directed for discharge.

Mr. Kohlmann stated the downspouts will be located underneath the bottom of the wall.

Mr. Garland confirmed.

Mr. Liechty asked Village staff if there has been any site grading plan and stormwater management analysis for the new landscaping proposal.

Mr. Harrigan indicated the Village Engineer has conducted a stormwater management review of the plan. Any of the recommendations found within the review letter will need to be reflected on an amended landscaping plan.

Mr. Schoenecker motioned and Mr. Koleski seconded to approve the plan as submitted. Motion carried 5-0.

Item 6. Review and act on a request by Michael Flatley and Michael Bond, 1240 Woodside Lane, for a home alteration.

Mr. Liechty asked what color the shed will be.

Mr. Wagner said the shed will be white.

Mr. Liechty asked if there will be windows.

Mr. Wagner stated there will be no windows.

Mr. Schoenecker motioned to approve the shed on condition the shed plan set is in accordance with the maximum allowable floor area of 150 square feet, Mr. Liechty seconded. Motion carried 5-0.

Item 8. Review and act on a request by Patrick and Laura Shanahan, 1080 Highland Drive, for a home addition and several alterations.

Patrick Shanahan was present before the Board.

Mr. Shanahan provided a summary of the project to the Board. He explained the rear of the home would have a new enclosure and there would be a garage addition as well. The existing siding would be changed to board and batten. Several windows on the front elevation of the home would also be modified to make them consistent with the other windows existing on the home.

Mr. Liechty asked what the side yard setback would be as a result of the new addition.

Mr. Shanahan indicated the side yard setback would be 18 feet.

Mr. Harrigan explained the minimum side yard setback with the Rs-1 zoning district is 20 feet. The proposed 18 foot setback would require a variance be approved from the Board of Appeals.

Mr. Shanahan explained the existing wellhead is preventing the proposed addition from complying with the 20 foot setback requirement.

Mr. Liechty opined that he would be uncomfortable making a motion on the project as the side yard setback is not compliant with the Village Code of Ordinances.

Mr. Shanahan requested for the Board to table his application at this time.
