April 29, 2010

Elm Grove, WI; Yesterday, a Waukesha County jury ruled in favor of the Village of Elm Grove in a lawsuit for breach of contract. "We are very pleased with the outcome of this long difficult process," said Village President Neil Palmer. "It was two years ago this week that the Village was forced to file this lawsuit" said Palmer.

"The residents of Elm Grove and our business community were forced to endure a long period of unnecessary disruption and inconvenience during the project and in addition to a claim for millions of dollars in extra charges. This verdict recognizes those facts and verifies the Village's position on our contract on this work," added Palmer.
