**Subject:** Reinders project

Dear Dave,

Our forward-thinking Elm Grove leaders have consistently maintained that our community structure is solid and strong. By supporting the birth of our library more than fifty years ago, defending our local grade school when it was threatened, constructing paths to our schools and our parks, safe water flooding projects, and so much more, they have looked to the future and improved it. The Reinders redevelopment project, in our opinion, seems to be another long-range improvement for Elm Grove.

Sadly, the opposition to this plan seems to have such a strong voice. We would like to raise our voice in support. Each day we watch large trucks barrel in front of our businesses, we drive over potholes, we look out at the Quonset hut, dumpsters, storage containers, concrete blocks and landscaping debris. This does not enhance our community – it does not reflect the essence of Elm Grove.

A unified architectural plan, beautiful new living quarters and a fresh landscaping plan would be such a huge improvement for our wonderful village. The Reinders plan has all these qualities.

We hope you can support it.

Thank you so much for your dedication and service to our community, and for giving unbiased consideration to this project.

Sincerely,

Jennifer Morales and Jill Wightman, The Ottoman Society
