Subject: Watertown path extension comment

I wanted to send a quick comment saying that it doesn't seem anything like Juneau path. It appears to only go in the yard of three residences. Which I question, why disturb their yards when the rest of the path appears to be adjacent to the street. I think if those three residences want a path to cut up their yard then go for it. If those three really hate the idea of yet another path dividing up another beautiful lot in EG I think you should respect their concerns and make the entire path adjacent to the street.

I have never supported bike ÷walking pathsö in EG and probably never will. I dislike the way they look and believe they are unsafe, especially when it comes to children on bikes.

Thanks for taking comments on the issue.
