**Subject:** Proposed cul de sac

David,

Thank you for the letter on the proposed cul de sac on Underwood Parkway. This change will be beneficial for several reasons.

I believe it has the potential of reducing the current noise, due to traffic volumes on North Ave.  
I believe it has the ability to reduce criminal activity from using North Ave. as a get away  
I believe it will reduce the traffic to only the residents that live on this end of Underwood Parkway

In all, I believe it will make our end of Elm Grove a little more private than it currently is. We can easily access Lilly Rd or Mt Kisco if we want to go either direction on North Ave., which is a small sacrifice when comparing to the benefits of having a cul de sac.

If you have any questions please feel free to contact me at the cell number below.

Thank you.
