Subject: Cul de sac at Underwood Parkway

June 25, 2018

Dave De Angelis
Village Manager

Dear Dave,

I am writing in response to the letter we received recently concerning the possible cul de sac at Underwood Parkway. I lived on Mt. Kisco Drive for 22 years as I growing up. It was a safe street in which to live. I currently live at 14270 Applewood Ct. and have been in this house for the past 23 years. We are just 3 houses from Mt. Kisco DR. We have raised our children here and have used Mt. Kisco Dr. and Underwood Parkway every day.

We are not in favor of putting a cul de sac in on Underwood Parkway. We have seen the traffic from the Village Green sub division using Underwood Parkway and realize that it would now be diverted to Mt. Kisco Dr, There is already quite a bit of traffic on Mt. Kisco from Thomas Jefferson, Andrew Jackson and Applewood Courts. Many times we need to wait in a queue to get out on North Ave. Putting a cul de sac on Underwood Pkwy would cause a considerable increase in the number of cars on Mt. Kisco Dr. making it unsafe to get on and off of North Avenue. I often times find it easier to get on and off North Avenue by entering or exiting onto Underwood Parkway. There are a total of 72 homes in the subdivision that uses either Underwood Parkway or Mount Kisco Dr. to enter and exit North Avenue which has a lot of traffic on it. If you close off Underwood Parkway with a cul de sac thus not allowing any car to enter or exit North Avenue from Underwood Parkway, you are forcing the traffic from all of those 72 homes (many who have more than 2 cars) to use only Mt. Kisco Dr. Doing the math, if each of the 72 homes has only 2 cars that means 144 cars will be using Mt. Kisco Dr. only vs.

half of the cars using Underwood Parkway. There will definitely be big backups on Mt. Kisco Dr., substantially larger than what we currently have. This will create a very unsafe situation on Mt. Kisco Dr. I am strongly opposed to having a cul de sac at Underwood Parkway.

Sincerely,

Katy Schlidt
