Subject: Elm Grove Road

Hi Dave,

I heard from the EGJG that you are thinking about a plan that makes Elm Grove Road only accessible to bikers, and essentially used as a driveway for one home. Effectively cutting the use of the road (or any turn around point) off for the houses to the west of the railway when there are trains coming through. I think this is a very bad idea given the amount of rail traffic in that spot.

Whatever the alternative is, it has to be better than this idea. No response needed, just wanted to make my voice heard in the matter.

Thanks,

Melissa Klotka
