Questions or Comments

Subject: Downtown "Reinvention"
Comment: Hello from Brookfield. I visit Elm Grove regularly and also do sidewalk astronomy about once a month at the Elm Grove Library. I saw the jsonline story at <https://www.jsonline.com/story/communities/west/news/elm-grove/2018/10/03/elm-grove-focuses-future-downtown/1511391002/> and have a major suggestion. In addition to Elm Grove's Bird Sanctuary designation, make it a "Dark Sky Village" by putting in shielded lighting throughout, so all photons are directed downward. Lighting would improve dramatically and people walking around the village would be able to see the stars. Please contact me for more information. Thanks, Ted
