Subject: Power grid

Dear Village Trustee,

I am even more deeply concerned w the Mandel development after last nights power outages. Elm Grove when looking at the map had a much larger disproportionate outage compared to Brookfield given much of it went out around 9pm well after the wind issues; with at least one outage being a transformer blowing .

I have found in recent years EG power seems to go out way more than surrounding communities. I hope this is something that will be investigated.

Thank you
Heather Dreske
