Subject: Village pathways

Hi Dave, We've lived in the Village for over nearly 9 years. I'm writing in advance of the next Board meeting to request that some action be taken on increasing the safety and walkability in our community. We have three elementary aged children and want them to safely be able to walk to school, downtown and to their friends houses.

Please pass along my sentiments to the Trustees.

20+ years is long enough to wait and dream for paths.
3.3 miles of paths should be a priority.

Please ask the trustees to make this project a priority by:

1. Getting the actual cost of path completion, instead of just saying it's too expensive.
2. Make 3.3 miles of paths completion a budget item
3. Set a realistic timeline to get paths completed so we are not waiting another 10-20 years to use and enjoy the linked path system.

Thank you!
